

Planning and Management of Sustainable Tourism Spaces

Assignment Guidelines:

This assignment requires students to demonstrate a deep understanding of sustainable spatial planning and management in tourism. Students are expected to critically assess how tourism spaces can be designed and managed to balance environmental sustainability, economic viability, and community well-being. The assignment should explore innovative planning tools, policy frameworks, and real-world applications that enhance the long-term sustainability of destinations.

Submission Format:

- Detailed project report
- **Font:** Times New Roman, Size: 12, Spacing: Double
- **Word Count: 4000–5000 words**
- **Submission Deadline: 24th October 2025**

Assessment Criteria:

- Depth of theoretical understanding (20%)
- Practical application of sustainable tourism planning (20%)
- Innovativeness of management frameworks (20%)
- Quality of environmental and social impact evaluation (20%)
- Clarity, structure, and APA formatting (20%)

Mandatory Sections:

- Title Page
- Table of Contents
- Abstract
- Introduction
- Literature Review
- Methodology
- Findings
- Discussion
- Conclusion
- References
- Appendices

Assignment Task – Choose ONE of the following written assignments:

Option 1: Smart Tourism Spaces – Integrating Technology and Sustainability in Urban Destinations

Write a comprehensive report examining how technology can be used to create sustainable urban tourism spaces. Your paper should:

- Explore the role of smart city technologies (IoT, AI, digital twins) in managing visitor flows and resource efficiency.
- Assess how data analytics can optimize waste, transport, and energy use.
- Include case studies such as Barcelona, Singapore, or Amsterdam.
- Provide recommendations for developing cities with limited budgets.

Option 2: Community-Led Sustainable Tourism Space Development in Rural Areas

Prepare a strategy for rural destinations to implement community-driven planning. Your paper should:

- Examine frameworks for empowering communities in decision-making.
- Analyze initiatives such as agro-tourism, homestays, and eco-villages.
- Evaluate challenges of commercialization and resistance to tourism.
- Support arguments with examples from India, Nepal, or African eco-tourism projects.

Option 3: Balancing Tourism Growth and Environmental Conservation in Coastal Ecosystems

Write a critical analysis on sustainable planning for coastal tourism spaces. Your paper should:

- Assess environmental risks such as coral reef degradation and pollution.
- Explore frameworks such as Marine Protected Areas and Blue Flag certification.
- Provide insights into successful models like Maldives' eco-resorts or Costa Rica.
- Recommend an integrated approach balancing tourists, local economies, and ecosystems.
